

PETRO-METER MODEL 1527 WEATHER-RESISTANT ENCLOSURES FOR MODEL 1329 TANK GAUGES

These weather-resistant cabinets are designed exclusively to protect our Model 1329 Remote Liquid Level Indicators when needed for outdoor installations or added protection. Available in the three standard single unit sizes (A, B & C) they are constructed from 1/16" steel with robust welded hinges and stainless steel fast-action clamps for easy access.

Available as stand-alone retrofits for existing systems, or complete with a Model 1329 Gauge built inside.
